OUTLOOK

Short term outlook

- Heavy clashes in Sabratah threaten to draw in fighters from other areas after pro-GNC and LNA troops threaten to join the battle on either side.
- Tensions have increased in southern Tripoli with reports of reinforcements arriving from Misrata and militia movements near Tripoli International Airport. Any clashes are likely to remain in southern parts of the city.
- An increase in IS activity has prompted both the LNA and BAM to reinforce positions east of Sirte. An increase in troop levels from BAM and the LNA once again increases the risk of confrontation between the two with the LNA still perceived as being a threat to BAM. There is an increased threat towards the LNA held oil installations along the crescent.
- Tensions remain elevated along the Zuwara, Sabratah and Zawiyah coastal areas due to a number of issues including a complex security environment involving fuel smuggling and people trafficking.

Medium to long term outlook

- The unveiling of a UN sponsored action plan, aimed at resolving the crisis in Libya, is expected to see long term changes in the political and security landscape in the country. Efforts will be made to return all stakeholders to the discussions and push forward a national political constitution. Presidential and Parliamentary elections will be prepared for late-2018.
- GNA President Serraj and LNA Commander Khalifa Haftar, remain central to international stakeholders' attempts to unify east and west. However, alternative solutions are being pursued by other entities with opposing factions. As factions move closer to a possible deal, tensions are likely to increase inside Libya, and there is potential for some level of fragmentation of their support bases. As a result, new alliances may be formed as progress leaves some with reducing levels of influence.
- The remnants of the GNC, which has allegedly benefited from Qatari support, remain politically isolated after losing their footprint in the capital at the end of May. Their last attempt to take territory in the capital by force failed when their fighters were forced from Garabuli on July 11, and support appears to be waning. The threat is assessed to be evolving as the GNC, and associated forces adapt to the changing environment. While intent is assessed to remain, especially for the hardliners, tactics may alter.
- There are indications that IS is beginning to regroup in Libya. Some reports suggest fighters from Iraq and Syria are heading to North Africa. The group is reported to be present in some areas south of Sirte, Bani Waled, and Sabratah.

SIGNIFICANT EVENTS

Governance

- A meeting was held in Tunisia involving HoR and HCS dialogue committees with the intent of amending the LPA. The UN envoy to Libya expressed hopes that the process would be finalized within weeks, ready for HoR approval by the end of November.
- Field Marshal Khalifa Haftar has visited Rome for talks with the Italian Defense Minister and a closed meeting with the Italian Interior Minister. Illegal migration was likely a key topic in the talks. Haftar was then due to fly to Paris towards the end of the week for further meetings.
- The US travel ban, preventing Libyans from visiting the US has been renewed indefinitely. In response, the eastern government in Libya has banned US citizens from travelling through Libya. The order is unlikely to affect travel in Misrata or Tripoli, but could have an impact on international operations in Benghazi or Tobruk.
- The leader of the High Council of State (HCS) Abdulrahman Asswehly met with the governor and directors of the Central Bank of Libya (CBL) on Tuesday. Discussions included the liquidity crisis and exchange rates.

Security

- Basit Igtet's anti-government protest in Tripoli passed peacefully, with an attendance of over 1,000 people. Protests also occurred in Misrata, Sabha, Nalut and Zawiyah.

September 29, 2017

- Despite GNA MoD calls for a ceasefire, fighting in Sabratah continues. The Anti-IS Operations Room (AIOR) has the upper hand although reinforcements have arrived for the Anas Dabbashi.
- The AIOR has closed coastal waters around Sabratah and threatened to attack any vessels that enter the area.
- Clashes have occurred near Gharyan as opposing forces travelled through the area to join Anas Dabbashi militia fighting in Sabratah.
- Protestors in Sabha have threatened to close the Great Man-Made River pipeline, if two officials from Sabha, arrested in Tripoli recently, are not released. Tuareg groups in Obari have also threatened to close the Sharara oilfield.
- US AFRICOM has announced that it conducted airstrikes in Libya on September 22 and September 26, killing at least 20 IS militants. IS has responded by posting a video showing their activities during recent months in Libya.

Travel

- The Ras Ajdir border crossing, between Libya and Tunisia remains closed.

LATEST DEVELOPMENTS

Governance

LPA begins to make progress

During the reporting period political developments continue to emerge in the wake of the new action plan, which was unveiled at the UN General Assembly in New York last week. Internationally, the plan has been well-received but opposition remains in Libya. Satisfying all parties in a country as diverse as Libya is a huge challenge that will not be easily achieved. The criticisms alone are therefore unsurprising and not a major obstacle to progress at this time. However, many stakeholders remain silent on the subject, including prominent parties which could have the power to interfere with or delay the process.

Eastern government introduces travel ban

The eastern government has issued an order banning US citizens from entering Libya. The ruling is a response to a US travel ban which prevents Libyans, along with citizens from seven other countries, from visiting the US.

September 29, 2017

Often this sort of proclamation can be an outward show of defiance, in reality having little impact on the ground. The week ahead should provide some indications of whether this ruling is being enforced in areas such as Tobruk and Benghazi. Tripoli and Misrata airports will ignore the ruling unless it is endorsed by the Presidency Council, something that is very unlikely at this time.

Security

Tripoli Protest Update

Basit Igtet's anti-government protest held in Martyrs' Square, Tripoli on September 25, passed peacefully. Tripoli's Security Directorate, citing security concerns, had banned the protest in the days before but relented at the final hour, allowing over 1,000 protesters to flood into Martyrs' Square and voice their concerns. A counter-protest, of around 100-200 people did little to aggravate the situation and security forces were able to reduce their profile, thereby lowering tensions later in the afternoon.

Heavy storms cause disruptions in Tripoli

Hailstorms and heavy rain caused flooding throughout Tripoli this week. Major roads have become difficult to pass and many smaller roads remain completely blocked. In the mountains to the south of Tripoli the rain caused flash floods which led to at least three people drowned.
